

# Bad Machines

## OUR MISSION

We are not just a bar—we are an experience. We do not just serve gamer influenced mixed drinks, delicious local craft brews, and provide a cozy sport to watch or play esports. We are also a full stage that produces amazing live shows featuring top talent from around the world that puts players first. We do this by building an ecosystem that is self-sustaining starting with the bar and ending with the fans. Investing in players, not just the sponsors to throw an epic exhibition matches for fun that is more tailored for the players and the fans, not just the brands.
